MBS 3A8

PRICE: $50

NOVEMBER 28, 2001

INTRODUCTION:

The Manitoba Bureau of Statistics (MBS) has prepared this report as part of its economic statistics program. The purpose is to provide information for Manitoba on the importance and impact of international merchandise trade.

This publication provides merchandise export and import statistics by country, country grouping, commodity and industry. The information is from Statistics Canada's International Trade Division.

MBS adjusts the value of exports for some commodities in its Manitoba Economic Accounts. These adjustments are undertaken to better reflect the value of the foreign export of these commodities to the provincial economy.

Users should be aware that the export data is on a "province of origin" basis, while the import data is on a "province of clearance" basis. Therefore, imports from other countries are not counted if they are cleared through custom ports in other provinces and then shipped to Manitoba (MBS would count these as interprovincial imports). This implies that the trade balances calculated for individual countries could overstate Manitoba's actual position.

All commodity data presented in this report are based on the 4-digit level Harmonized System (HS).

The Manitoba Bureau of Statistics has available additional detailed information, which can be supplied to interested users on a cost recovery basis. Export/Import information that can be provided includes:

i) individual commodities for specific countries
ii) individual commodities by country (volume and dollar value) at the 4, 6, 8, or 10 digit HS level
iii) commodities by country for specific industries or sectors.

For answers or further information, please contact Marcel Chartier at (204) 945-2991.

NOTE TO USERS:

The data presented in this report has been derived from the most current estimates released by Statistics Canada's International Trade Division. Due to valuation issues, MBS has made revisions of Coin (HS 7118) exports to the United States (a reduction of $747.5 million for 2000 and $0.7 million for 2001) and Articles of Copper, nes (HS 7419) imports from the United States (a reduction of $794.0 million for 2000 and $0.3 million for 2001) to better reflect Manitoba's trade transactions. MBS has also made a reduction of $126.3 million to aircraft imports from France for 2001.

It is to be noted that revisions to previous year's data (2000) now occur on a quarterly basis. This results in a decrease of $43.7 million between the second and third quarter total export numbers for the 2000 calendar year.

MANITOBA TRADE UPDATE

FOURTH QUARTER, 2001

MANITOBA
BUREAU OF STATISTICS

RIGHT ANSWERS
RIGHT NOW

MBS 3A8

PRICE: $50

MARCH 14, 2002

INTRODUCTION:

The Manitoba Bureau of Statistics (MBS) has prepared this report as part of its economic statistics program. The purpose is to provide information for Manitoba on the importance and impact of international merchandise trade.

This publication provides merchandise export and import statistics by country, country grouping, commodity and industry. The information is from Statistics Canada's International Trade Division.

MBS adjusts the value of exports for some commodities in its Manitoba Economic Accounts. These adjustments are undertaken to better reflect the value of the foreign export of these commodities to the provincial economy.

Users should be aware that the export data is on a "province of origin" basis, while the import data is on a "province of clearance" basis. Therefore, imports from other countries are not counted if they are cleared through custom ports in other provinces and then shipped to Manitoba (MBS would count these as interprovincial imports). This implies that the trade balances calculated for individual countries could overstate Manitoba's actual position.

All commodity data presented in this report are based on the 4-digit level Harmonized System (HS).

The Manitoba Bureau of Statistics has available additional detailed information, which can be supplied to interested users on a cost recovery basis. Export/Import information that can be provided includes:

i) individual commodities for specific countries
ii) individual commodities by country (volume and dollar value) at the 4, 6, 8, or 10 digit HS level
iii) commodities by country for specific industries or sectors.

For answers or further information, please contact Marcel Chartier at (204) 945-2991.

NOTE TO USERS:

The data presented in this report has been derived from the most current estimates released by Statistics Canada's International Trade Division. For the year 2000, due to valuation issues, MBS has made revisions of Coin (HS 7118) exports to the United States (a reduction of $898.9 million) and Articles of Copper, nes (HS 7419) imports from the United States (a reduction of $1,340.3 million) to better reflect Manitoba's trade transactions. MBS has also made a reduction of $534.0 million to aircraft imports from France for 2001.

It is to be noted that revisions to previous year's data (2000) now occur on a quarterly basis. This results in a decrease of $55.2 million between the third and fourth quarter total export numbers for the 2000 calendar year.
